- Affordable pricing and rapid results reporting
- Direct experience with multiple versions of BIFMA, GSA, UL, CGSB, ISO, and European standards

AFT is a U.S. Veteran Owned Company, supporting our troops at home and abroad.
 To keep our footprint small, we recycle as much as possible, and use energy efficient test machines.

We've built a reputation as the **INDEPENDENT TESTING FACILITY OF CHOICE** for major furniture manufacturers because mechanical furniture testing is our sole focus – not a sideline. No one, after all, can be experts at everything.

The principals of **ADVANCED FURNITURE TESTING** have over 50 years of experience in the office furniture industry. We've been at it so long and tested so many varieties of office chairs, desks, theatre seats, folding chairs and systems furniture that it would be surprising to find a single piece of furniture with which we haven't had direct experience.

21ST CENTURY FURNITURE TESTING

We use only the highest quality components for our test equipment. Our technology provides greater accuracy and repeatability than that offered by our competition. We are confident with our machines and actually use the equipment we sell.

FAST QUOTATION & REPORT TURNAROUND

We work on the 24-hour rule: you'll have pricing within 24 hours of your request, we'll begin testing within 24 hours of receiving your product, and an electronic version of the report will be in your hands within 24 hours of test completion.
